

Don't let Increased Volume and Velocity Slow You Down

Master fast, flawless fulfillment and seamless returns with Zebra

Consumers expectations for fast and flawless product fulfillment, free delivery and easy returns in the omnichannel retail marketplace have created increased supply chain challenges

Supply chain decision makers are investing in automation. Keep pace with intensifying demands with the right technology:

More Returns
 \$642.6
billion estimated globally in returned goods annually²

89%
agree e-commerce is driving the need for faster delivery, spiking concern and investment³

Make it Simple. One Brand, One Vendor, One Solution

For all your technology, service and support needs

Zebra's ultra-rugged scanners, printers, vehicle-mount mobile computers and tablets are purpose-built to work seamlessly together. They empower your team to increase speed, accuracy and consistency, leading to greater workflow compliance. Select Zebra Certified Supplies to print labels that last longer, won't smudge and protect the life of your printhead. Ensure those labels scan the first time—every time—by pairing with a Zebra scanner. Protected by Zebra OneCare™, you're covered with service from the source.

Be more productive with Zebra at your side

Increase efficiency with completely mobile workflows

Fulfill with speed and accuracy

Enable accurate, agile fulfillment

Confirm delivery and customer receipt

Accept and process returns with ease

Access enterprise data for timely decision making

Easy integration and management

Unmatched durability for demanding environments

Protected by Zebra OneCare™

Zebra offers many integrated fulfillment and distribution center solutions, purpose-built for fast, flawless fulfillment.
